**Founder & President**

**The Foundation Of Handicaped Development**

Brij Raj Singh has been running NGO called 'The foundation of Handicapped Development' from the last 11 years in which he has provided jobs to 118 handicapped and self-employed. Stop begging and making self-reliant to 17 handicaps. Now his next goal is to make 5 handicaps self-reliant by making them self employed so that they can leave honorably in the society.

**"Lagan Jab Lagti Hai Dil Main  
Duri Nahi Rehti Manjil Main"**

This proverb 92 years old craft man Ram V Sutar who has created the statue of Sardar Vallabhbhai Patel, Brij Raj Singh President of The Foundation of handicapped development comes true strives to raise the standard of living of the disabled with his art of dedication. In which he has also been successful to a great extent, yet he has raised a small major to make self employment of 5 handicappeds which will enable him to live his life without family and social support and he will get a chance to live self respectfully.

Pramod Das is handicapped and all three of his daughters are handicapped. He is providing good education to the daughters. he is begging in Sai Baba temple on every thursday to support his family and the children get education. Pramod Das wants to do some work and carry out his family responsibilities respectfully but due to lack of support and resources, he has to spend his life like this. Let us all come together in collaboration with The Foundation of Handicapped Development and provide a chance to live honorably.

Like Pramod Das, there are 4 more handicaps who are in need of business because they cannot even do any jobs due to not being educated. The Foundation of Handicapped Development is making these 5 self-reliant by making them self employed so that all these can spend honorable lives.

The foundation has determined that they should be self employed near their home so that they have the facility to move as the foundation has been doing for the convenience of the disabled till date. The main expenditure of the all 5 handicaps is given below
